### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The specification has been amended by adding, on page 1, after the phrase "filed May 14, 1999", the phrase --- ,now U.S. Patent 6,294,628, ---. This amendment has been made to update the priority.

2. The following is an examiner's statement of reasons for allowance: As applicants have argued, the specific combination of monomers with the specific proportions required by the claims is not suggested or motivated by the teaching of the closest prior art as cited. The Affidavits with regard to prior sale submitted by applicants have been considered. The sale of the invention by a third party, however, is not a bar when the sale does not disclose the invention and the specifics of the item on sale are kept secret, M.P.E.P. 2133.03(b).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
